

Call for FCI Grand Prix OLR Controllers

FCI Grand Prix One Loft Race is one of most prestigious and well-organized championships in the arena of pigeon sport. Being a member of FCI Grand Prix OLR (GP OLR) benefits the OLR in many ways.

From 2022 FCI aims to launch a new evaluation system for GP OLR and would like to expand this Championship to a larger scale. There will be a new “Grand Prix Category” at the Olympiad and only FCI OLRs supervised by FCI controllers are eligible to take part in this category.

Hence, it is fundamental to build up a network of FCI delegates who will have long-term cooperation with both FCI and GP OLRs.

A. Job description

1. Responsibility of an FCI Controller:

- a. To OLRs
 - Supervise the well-being of the pigeons in whole season
 - Control the ETS and GPS systems
 - Control the trainings and all races
 - Control pigeons in the final race and record the results correctly
 - Observe the operation of the OLRs throughout the year to evaluate the OLRs according to the evaluation system of FCI
- b. To FCI:
 - Attend the training for FCI GP controllers
 - Score at least 90% in the final test after the training in order to be authorized as FCI Controller
 - Give reports to FCI Office
 - Inform FCI about any changes in case the controller has difficulty at the OLRs
 - Send the checklist and pictures of the final races in time
 - Participate in the evaluation of OLR-s

2. Benefits of Controllers

- FCI will cover the travel costs of the controller for the final race
- OLR will cover the cost for accommodation, food, travel inside the country/or transfer from the airport to the loft)
- Invitation for the Olympiad (entry tickets for the exhibition)
- The job exists on voluntary basic

3. Requirements to be an FCI Controller:

- Have at least 3 years of experience in pigeon sport and one loft races
- Can communicate confidently in English
- Have a basic knowledge of IT
- Detail-oriented and impartial working attitude
- Be able to travel outside their country of residence

2. Application procedure

- a. **Anyone who is motivated to become an FCI controller (fanciers supported by federations or individuals) must fill in the application form via this link:**
[FCI GP Controller Application Form](#)
 - Submit the CV
 - In the CV, please indicate at least 3 OLRs and the year in which you have joined.
 - Submit the motivation letter (maximum 1 page) to tell FCI why you are interested in individuals or being an FCI controller.
 - Submit support letters from the federations or OLR-s
- b. **Deadline of the application is 12th January 2022.**
- c. Short-listed candidates will be informed via email to take part in a mandatory training organized by FCI to 10th of January 2022.
- d. Training will be organized in online form between 20- 25 January 2022.
- e. After the training, candidates must pass the final test - also online- in 3 days after the training, with a minimum score of 90% in order to be officially authorized as an FCI Grand Prix Controller. A certificate will be given to those who successfully pass the test.
